      - MCC-H FS support was available when the MCC-H reopened

## Medical Operations

Dr. JD Polk

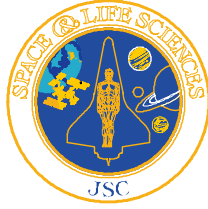

Jan 31, 2006

- Recommendations

- Katrina

- Deploy key personnel as soon as possible to evaluate the situation and report on what is needed/required at the site
      - Communications will need to be considered and a Sat phone might be required for the initial personnel
    - Maintain list of key personnel that can be deployed to support these situations
    - Maintain list of supplies/equipment that can be deployed to support these situations
    - Consider a pharmacist to manage medications
    - Consider what you will be seeing immediately, in the short term and in the long term and provide supplies and equipment accordingly

## Medical Operations

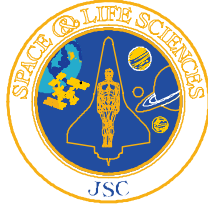

Dr. JD Polk

Jan 31, 2006

- Recommendations

- Rita

- Leave early or stay put
      - Don't leave in the middle of the evacuation, when millions of people are on a few major highways
    - Have a good communications plan like SD established
      - This kept everyone well informed and the mission fully supported
    - Have a plan to return to nominal operations
      - Be flexible for personnel, but support the Center and mission
